For years, Pokémon fans have been waiting for a great Pokemon game that could bring something fresh to the famous series. With Pokemon Go, we've experienced augmented reality technologies for the first time. However, there is still something lack with the gameplay, especially the storyline. That being said, with Pokémon: Let's Go, Pikachu, Eevee!, you'll have the chance to experience intuitive gameplay along with a captivating storyline based on the legendary Kanto region. The game is now available for Nintendo Switch and certain smartphone devices. Find out all about this amazing game with our review.

**Story** With the combined gameplay of both the old-school Pokemon games and new technologies, Pokemon Let's Go Mobile is undoubtedly a promising title. You'll start as a young teenager who've got an undying desire for studying about Pokémon. Receive your first Pokemon from Professor Oak, grab on the Pokedex and embrace your journey through the Kanto region. Battle tough Gym leaders to earn your badges, catch Pokemon to complete your Pokedex, and defeat the evil organization of Team Rocket. In additions, you'll need to become friend with your Pokemon to earn their trust and affection. This would, in turns, strengthen the bonds between the trainer and their Pokemon, giving them a powerful boost during battles.

**Gameplay** The game features the traditional RPG gameplay with the same setups from the original Pokemon Yellow. However, gamers will have their chances to explore many new elements that were never before seen. Find out more about the gameplay here: Running, swimming, and even riding with your Pokémon! In Pokemon Let's Go Mobile, players can have their Pokemons staying out with them instead of keeping them in the Pokeballs. However, this is not a new feature, even compared to the original Pokemon Yellow. The thing that makes this feature a lot more interesting is that you can keep more than one Pokemon out of their balls. That being said, you can have all your Pokemons running around with you as you travel the lands of Kanto. In additions, if you have large Pokemons like Onix, Gyarados, and the likes, you can even ride on them along with other small Pokemons. This makes the trainer feel like they're in the real Pokemon world. Catch the same Pokemon for special rewards. For the hardcore trainers who would like to collect all the possible prizes and rewards, you can try to create a catching streak of a single Pokemon. This gives a lot of benefits as you'll increase the chances of encountering Shiny Pokemons as well as earning a simple candy for powering your Pokemon up. And if you drop out in the middle of the session and catch a different Pokemon, any recorded stats will be deleted. That being said, make sure you continue your streak to reach your final goals.

**Play against the legendary master Red** The original character from the original Pokemon game, Red is considered as one of the most powerful trainers in the world. Thus, making him a desirable opponent for any trainer who want to become champion. That being said, after completing the Gym challenges and defeating the Elite Fours, you'll have your chance to face the legendary trainer. Fight and defeat him in a head-to-head battle. Make sure your Pokemons are powerful enough as most of his are over the level of 90. In additions, the two of you will be fighting without the use of items or whatsoever. Hence, make sure you come with the suitable tactics and have a healing Pokemon in your team. Take on the Master Trainer challenge. Although the main gameplay only last until you defeat the Elite Fours and Red in your final battle, there are still many challenges as well as side missions for you to complete in Pokemon Let's Go Mobile. And one of those is the exciting Master Trainer challenge. Like its name, the challenge requires you to surpass all Pokemon trainers in the whole region by defeating them in trainer battles. However, there is a single rule for this challenge, you can only bring the one Pokemon to battle the same Pokemon of others. Across the Kanto region, there would be 153 different trainers, equivalent to 153 different Pokemons in the Pokedex. This would be quite tricky since you'll have to train all your Pokemons so they can have the required powers. Not to mention that it wouldn't be easy to catch all the Pokemons in the first place. Connect to Pokemon Golf if you've been playing the old Pokemon games, you'll know how hard it is to collect all the Pokemons in the Pokedex. That being said, in Pokemon Let's Go Mobile, they have made things a lot easier with the option to connect to your Pokemon Go app. You can use Pokemon Go to capture all the rare Pokemons that are difficult to locate in Pokemon Let's Go Mobile and trade them between two platforms. This makes things a lot easier as you'll also have access to a large community of Pokemon Go gamers. More interaction between Pokemons and trainers. In additions, the game also focuses a lot on the relationship between trainers and their Pokemon with some highlighted features. You'll have access to more interactions with the Pokemon aside from just keeping them outside of their balls. Talk to them every once in the while, pet them, give them food, or even scratch their backs if they feel itchy. All can be done using the touchscreen control. And as mentioned, the stronger the bonds between the trainers and their Pokemons are, the stronger the Pokemons will become. Hence, if you have a strong bond with your Pokemon, it'll have a better chance at dodging attacks, healing from poisons, burn, paralyze, and so on. You'll have higher chances of winning the battles. Play with other trainers. Although the game mostly focuses on the single play gameplay, you can still play against other trainers in friendly battles. You can also trade Pokemon with them so that you both can have your desired Pokemons. And most interestingly, the game allows trainers to join forces in catching tough Pokemons. You can "double-throw" the Poke Balls to enhance your chances of successfully capture certain Pokemons. Visual and sound quality. Graphics. The game features beautiful 3D graphics with realistic elements that make you feel like you're playing in a real Pokemon world. In additions, the gameplay is quite friendly with little violence. Hence, the game is available for people of all ages with little restriction. And most importantly, the relatively simple graphical demands also make the game playable on all devices. Hence, you can enjoy Pokemon Let's Go Mobile on even the old Android models with ease. Sound/Music. Follow your whole journey, you'll be enjoying peaceful music and soundtracks that keep you relax. In additions, the sound effects and voiced actors make the world of Pokemon seem much more intuitive than ever before. Final thoughts. With improved graphics and gameplay, the game is definitely a worthy title even for the old fans who've played the original Red, Green, and Blue versions. Download Pokémon: Let's Go, Pikachu! Mobile latest 9.1.10.2 Android APK. Fans of the famous Pokemon Masters or Digimon ReArise will definitely find Pokemon Let's Go as their next favorite game. Any Android devices that use Android 5.0 and up are able to download and install this game. You can start by going to [Apkdne.com](http://Apkdne.com) and look for the keyword "Pokémon: Let's Go, Pikachu Mobile APK" in the games category. Apk. The Pokémon Let's Go Pikachu Apk RPG Game. First delivered for the Nintendo Switch in 2018 and is the primary genuine changes of the Game Boy Color pretending computer game Pokémon Yellow. Game Freak, and together the Developers of this game and distributors is The Pokémon Company and Nintendo. This games were initially delivered on the 3DS and afterward ported to the Nintendo Switch. Two or three weeks prior, Pokemon Let's Go Pikachu sent off on Android. We should Go, Pikachu were delivered in Nov 2018 for the overall market. These games are the main Pokémon games on a home control center that have a place with the seventh era. While including network with the well known versatile game Pokémon Go, the Poké Ball Plus is additionally viable with a regulator, the Poké Ball Plus regulator. The arrival of Let's Go, Pikachu, presently offers players numerous new exercises and associations with the world to frame a paramount excursion progressively. Players can do anything they desire, incorporating communicating with NPCs, fighting Pokémon, and finishing journeys dissipated all through the district for different prizes. They can likewise meet different players, communicate with one another, and take an interest in numerous web-based exercises with many new changes in interactivity. Catch THE RARE AND POWERFUL CREATURES. All animals are called Pokémon, and they have numerous interesting attributes to add to the player's primary fight arrangement all through the excursion. Players are allowed to gather any animal they're keen on or train in fight developments to open new abilities or potential in their battle. Everybody has the valuable chance to battle or gather intriguing animals, from which to boast to everybody and take an interest in the most energizing matches. COMPLEX YET THRILLING TURN-BASED COMBAT MECHANISM. The fundamental battle framework in Let's Go, Pikachu is as yet a turn-based procedure yet has numerous great enhancements contrasted with its ancestors. Players can now align with colleagues, perform combos, and consolidate the abilities of Pokémon to make an unnerving mix. Individuals can likewise utilize limitless things, however numerous amusing impacts slowly increment the battle's speed and establish the most convincing climate. Shifted EVOLUTION PROCESS WITH EXTRA BOOST IN LEVELING. Each Pokémon in the player's ownership has numerous magnificent things to find and appreciate for themselves, such as stepping up or developing. That will switch their whole appearance and open around numerous new abilities or battle strategies for players to facilitate with partners to send off strong assaults. Besides, extreme circumstances, super-structures will open up and take the climate or beat of the fight to an unheard of level. VAST ACTIVITIES FOR ONLINE MULTIPLAYER. The best thing about Let's Go, Pikachu is the internet based exercises that the game consistently makes for everybody, to make the circumstances for players to appreciate everything without limit. Online exercises are much of the time more limit and thorough, yet the prizes and fun they bring are plentiful. Specifically, the world supervisor occasions are the climax of energy when everybody needs to cooperate to battle a wide range of unnerving and strong foes. We should Go, Pikachu is another age section to the Pokémon establishment and applies novel core to submerge players in the activity experience interminable diversion. Most importantly, its exercises and interactivity are progressing, enough for everybody to create and turn out to be any ordinary person in a major world.
